

Who are we?

Sir Toby's Beers lives on the award winning Norwich Market and is well known for its ever-changing range of local ales and craft beers. They were established in 2018, however morphed into a market bar as well as an online delivery service in 2019.

With the relationships they have built up with local and national craft brewers and some snazzy beer dispensing kit – Sir Toby's can bring a full, customizable craft beer bar to your wedding, party or gathering.

WHAT'S THE COST?

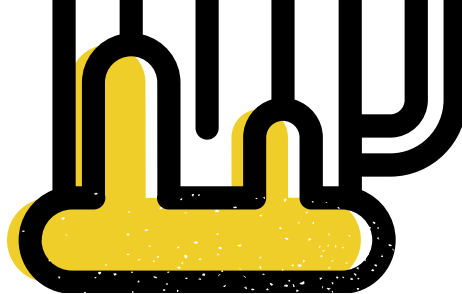

A bit like life on the market, everyday is different and the same applies to each event. We generally operate on a minimum spend for each event alongside a reasonable set fee to help towards travel and staff costs. However, we are happy to talk about any event of any size, so please don't hesitate to get in touch.

WHAT SERVICES DO YOU OFFER?

We offer a fully stocked bar that specialises in craft beer. We understand that you may be the beer enthusiasts, however we all aspects will be covered in regards to wines, spirits etc. We offer cocktails on the evening and prefer to offer either local or specialist drinks where possible.

We can also provide help with welcome drinks for a wedding as well as glass hire and wine for your wedding breakfast if it's necessary.

If it's just the beer you are after, we also hire out our beer dispensing kit that we deliver and pick-up alongside the beer of your choice. We then leave you to show off your pouring skills.

Our large, rustic bar photographed before all of the drinks came out to play at a wedding in August 2019.

CAN I CHOOSE THE BEER?

Absolutely, that's just the ideal. Each brewery that we work with offers a plethora of pale ales, IPAs, sours, stouts and even seltzers. We can bring up to 4 craft beer keg lines and will work with you to choose the beer you would be most excited about offering to your guests.

We also have a 100+ stock of bottles and cans from breweries all over the country, Germany, Belgium and from across the world. We can talk to you about bringing a variety of these for your guests to try.
